

state-of-the-art technology for surgery

C.H.U. de Charleroi

Econocom provided Charleroi university hospital with equipment and maintenance for eleven of its operating theatres and a neurosurgery unit featuring a state-of-the-art multimedia flow management solution.

- A **pioneering technology adoption strategy** to ensure more efficient, securer patient care
- Digitalised operating theatres as part of a **“paperless hospital”** policy: all surgical procedures are recorded in the hospital’s PACS*
- **Optimised surgical practices**: internal and external communication via videoconferencing for remote expertise and training
- **Modern, open communicating technology** that can incorporate the hospital’s in-house solutions

11 operating theatres

1 neurosurgery unit

training for hospital staff
